

## The Sacramento State Quarterback Club

More than 120 different individuals have joined the Sacramento State QB Club since its inception in the spring of 2007. While the yearly dues fees is \$1000, many members have contributed amounts in excess of that which added to the income from other events and promotions has totaled over \$350,000 in the first two years for the football restricted fund.

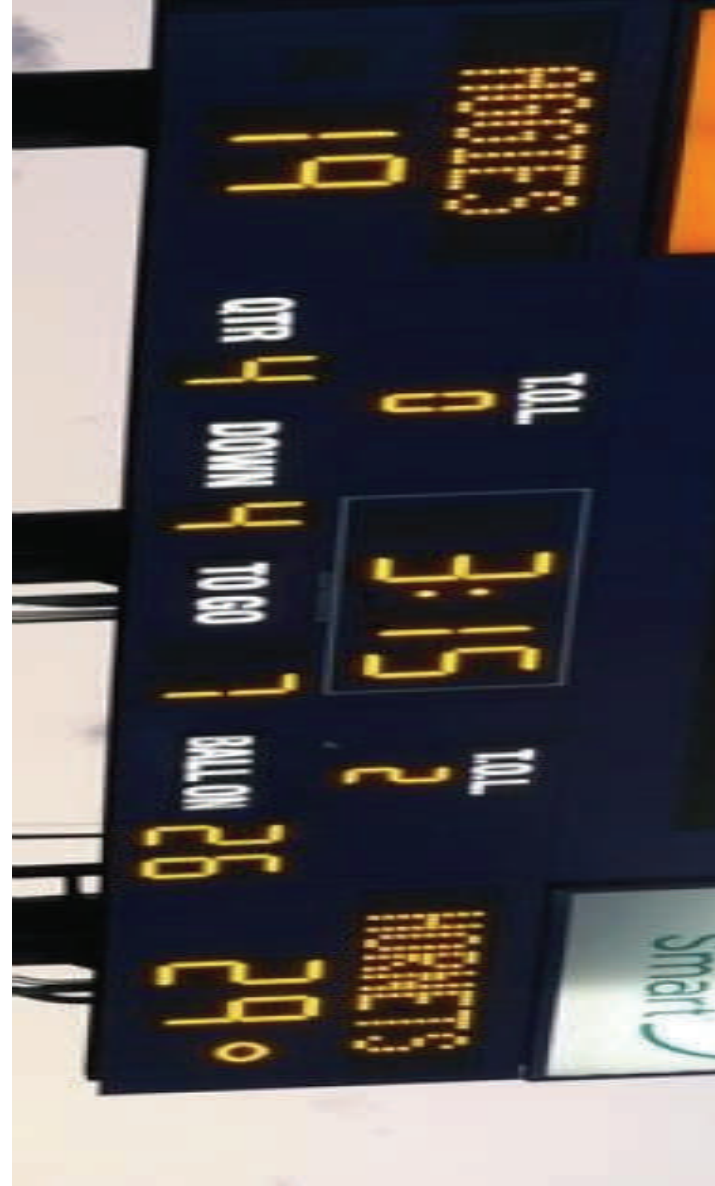

All funds raised go directly to the football program, with no overhead of any kind being incurred.

There is no doubt that this has been a significant difference maker in the ascension of the Sacramento State football fortunes in the past two years.

We are not yet where we want to be, which would be at the top of the Big Sky Conference and ultimately national champions. We must continue to keep the program at a high level by sustaining the improvements made, and adding to that as we proceed.

Quarterback Club membership rewards you with a strong sense of camaraderie and achievement. Our many events such as pre-game parties, kick-off parties and weekly luncheons have created a strong band of supporters who have taken pride in the growth of the program.

If you have participated in the past, please continue by joining again. And if you have not yet joined please do so and become a part of our efforts to make Sacramento State Football the best sports attraction in town

# Quarterback Club Contributions

The Quarterback Club is a key component in helping Sacramento State raise its football standards. Without all of your donations, we would not have been able to begin the process of building through your efforts. We have taken tremendous steps forward in overcoming the financial short comings of the past years. By having the support / donations of the Quarterback Club members, we have been able to install a new pride and a higher standard in our team that was not here previously. With your help, we can make Sacramento State University a successful Football Program.

Sincerely,  
**Marshall Sperbeck**

 Sacramento State University
